🔄 LeetCode (AADHAVAN_KA)

SUMMARY

Highly motivated 1st-year Computer Science Engineering student and Full-Stack Developer with hands-on experience in building real-world web applications. Passionate about problem-solving, AI integration, and scalable systems.

EDUCATION

Bachelor of Engineering (B.E) - Computer Science and Engineering (1st Year) Chennai Institute of Technology CGPA: 8.76 (1st Semester)	2025 - 2029
HSC & SSLC, GHSS Kolakkanatham	2023 - 2025

EXPERIENCE & ACHIEVEMENTS

Independent Full-Stack Developer | AKNEX Labs **2026 - Present**

- Architected and developed 5+ real-world campus and household utility web applications, reaching hundreds of active users.
- Deployed and managed applications using **React, JavaScript, Firebase, and Vercel**.
- Applied full-stack best practices, including RBAC, real-time database sync, and responsive UI/UX principles.

Competitive Programming & Hackathons

- LeetCode (ID: AADHAVAN_KA):** Rating 1500+ | Solved 400+ problems | 100 Days Badge | 2 Month Coder
- HackerRank:** 50+ problems solved

PROJECTS

1. CIT Food Finder	🌐 Live Demo	💻 GitHub Repo	React, Firebase, HTML, CSS, JS
- Developed a mobile-first campus utility app used by 100+ students for checking real-time food availability. - Implemented live queue status monitoring, AI recommendations, and domain-based secure authentication.			
2. AKNEX Ultra Tools	🌐 Live Demo	💻 GitHub Repo	React, JS, Vercel
- Developed a platform featuring 50+ browser-based productivity utilities with responsive UI and optimized performance. - Engineered responsive tools for text processing, PDF handling, image utilities, and productivity enhancement.			
3. Personal Resume Website	🌐 Live Demo	💻 GitHub Repo	HTML, CSS, JS
Designed and developed a personal resume website using HTML, CSS, and JavaScript with Flexbox UI and clean theme.			
4. IDE / Online Code Editor Platform	🌐 Live Demo	💻 GitHub Repo	React, Wandbox API
- Built a browser-based IDE supporting multiple programming languages using Wandbox API integration. - Implemented real-time code execution, syntax highlighting, and responsive developer-focused UI.			

SKILLS

LANGUAGES

C++, Python, JavaScript, SQL

BACKEND & CLOUD

Firebase, Cloud Firestore

CONCEPTS

DSA, OOP, DBMS, Operating Systems, Web Design

FRONTEND

HTML, CSS, React

TOOLS

Git, GitHub, Vercel, VS Code

LICENSES & CERTIFICATIONS

- C++ Programming** — GUVI HCL
- Python Essentials 1** — Cisco Networking Academy
- Python Essentials 2** — Cisco Networking Academy
- Java Course – Mastering the Fundamentals** — Scaler ([Link](#))
